

BLOOM GLOW

ANTI-AGEING STICK

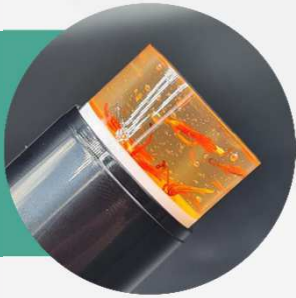

031.E13

FACE

GP2023INCOS

ISO 16128

OVERVIEW

This stick formula hard texture is possible thanks to a mix of two oil thickening polymers : Estogel® M which brings strength and Estogel® Green which brings elasticity. The oil phase is enriched with Sabosoft NSIL MB, a multifunctional active emollient oil for a full repair and protection, combined to JD Lusteris™ which maintains the natural hydro-lipid skin barrier. Sustane™ SAIB Food Grade is added as a film former enabling an even application of the stick. MH Safran Pétales 5% CBIO TCOS and Safflower PhytPeel Petals were added to give this stick an oriental aesthetic aspect fitting with the fragrance. Eastman GEM™ Retinyl Sunflowerate and Lift Oléoactif® were added as anti-ageing actives, whereas Blush Oléoactif® is used as a skin enhancer boosting positive self-perception.
