OVERVIEW

This formula is an anhydrous beige powder which changes color in contact with water to give a deep blue cleanser. Sabosoft RP gives it a smooth application and a soft after feel. Soapnut Extract Powder is perfectly adapted to this kind of formula due to its cleansing and anti-microbial properties. Salixin® Organic Powder 48 also adds anti-inflammatory properties to this cleanser. The intense change of color is due to the deep blue anti-oxidant active SAFIC' Care A Blue Powder.
